# SPONSOR COACHING

---

Combining one-to-one time with facilitated group sessions to engage and challenge executive-level thinking and practices relating to change leadership.

Few sponsors have been on a training course in how to sponsor programmes effectively, or how to get the most out of their PMO. We work with leadership teams to realise their potential in the leadership of change projects across organisations.

We provide a highly pragmatic and interactive approach, where we sensitively relate the work to real situations rather than theoretical ones. This brings the discussion to life and embeds learning successfully.

Our coaching will:

**Improve sponsor understanding of change, programmes and the PMO**

**Support better decision-making**

**Enable sponsors to better champion across the project and programme portfolio**

**Help protect and elevate the sponsor when responding to surprises and the unknown**
